PREVENT FOREST FIRES — IT PAYS

An average of 7,300 acres of woodland are burned over by forest fires in New Hampshire each year destroying many thousand dollars worth of property of all description. It costs many additional thousands of dollars and requires valuable man hours, taken from other essential work, to extinguish them. These losses affect the personal fortunes of the owners and town and state economics. Everyone loses because of them.

Analysis of fire causes reveal the fact that more than 98 percent of all forest fires are, consistently, the result of human carelessness and are preventable!

We have been extremely fortunate during the past few years. Favorable fire weather and war time restrictions on travel which kept people off the highways and out of the woods have aided materially in reducing fire risks, keeping fires fewer and fire losses low.

We now face changed conditions. People can travel freely. Their love for travel and the freedom of the woods will bring them out in ever increasing numbers. This will step up fire risks materially. The accelerated cutting of the war years has resulted in additional thousands of slash acres. These factors, combined with a possible dry season and human carelessness could easily produce a catastrophe. Everyone must, consequently, be on their guard. They should

1. Be careful with fire or when smoking in or near woodlands.
2. Cooperate with the local forest fire warden and his deputies by

- a. Abiding cheerfully with whatever restrictions it may be necessary to impose. They are intended only to be helpful.
- b. Securing permits to burn debris when the ground is not covered with snow.
- c. Seeing that others comply with requirements.
- d. Promptly coming to the warden's assistance when needed.

If these few fundamental practices are followed it will be possible to PREVENT a large proportion of FOREST FIRES from starting — that PAYS!

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Allentown:

This my twelfth annual report is written not only as we enter upon a new year, but also as we enter a new era in the history of our country. After four years of world conflict we have emerged the most powerful nation of all time in the art of destruction. To win a peace that shall be just and permanent challenges not one generation but a score of generations to come. The hope of mutual understanding and cooperation among peoples at home and abroad springs from faith in the adaptability and resourcefulness of youth. There arises here a profound obligation upon every home and every school. I have reason to believe that the teachers and school officials are alert to this responsibility.

Only one change has occurred in your staff of teachers. Following the resignation of Miss Mary Patsourakos, teacher of the four higher grades, Miss Edith Whitemore of Pembroke was elected Principal of the Allentown School. Miss Whitemore, a graduate of Plymouth, comes to us with a valuable background of experience in several of the best school systems in New Hampshire and Massachusetts.

A special class for five children who are handicapped by defective hearing is conducted every Thursday from 12:45-1:45 in the afternoon. Instruction in lip reading is given by Mrs. Catherine E. Hammond, a specialist in this field of instruction. You will find in this class a particularly interesting activity. They appreciate entertaining visitors.

Mrs. Edith Tuttle has, this year, a very interesting group in the four primary grades.

Mrs. Martha F. Gale of Concord is now supervising the Music instruction in the elementary grades of both Allenstown and Pembroke.

There is a slight increase of some ten per cent in enrollment. The report of your enumeration officer follows: No. boys (5-16 yrs.) 152; No. girls (5-16) 131. Total: 283 Of this number the following are not in school:

Below required attendance age (5-8)	15
Complete elementary grades (14-16)	2
	<hr/>
	17
No. (5-16) in public schools	42
No. (5-16) in local private schools	398
No. (5-16) in elementary schools outside of Allenstown	6
No. (5-16) in academy and high schools outside of Allenstown	24
	<hr/>
Total (5-16) accounted for in schools	470
No. (5-16) living in other towns but attending schools in Allenstown	204
	<hr/>
Whole number of RESIDENT children (5-16) in schools	266

Five girls and four boys from the Seventh and Eighth Grades of Allenstown are not receiving instruction with the domestic arts and woodworking classes in the Pembroke Grammar School. These pupils also attend the physical education classes in Pembroke.

The medical inspection of all school children for the year 1944-1945 was made by your school nurse, Miss Adonia A. Douillette, R. N. Her report shows:

Your school lunch service was reopened in November under the direction of Mrs. Dorothy Poisson who served the hot lunches during 1944-1945.

This year in December alone 557 individuals lunches were served at a total food cost of \$30.96, which was met by the school children and teachers. Donations of food were

credited as well as money payments. Typical lunches served in December consisted of:

Spaghetti and Meat Balls
Mashed Potatoes
Bread and Jelly
Milk

Creamed Tuna Fish on Crackers or Toast
Bread and Peanut Butter
Milk

Mrs. Poisson, who has taken a keen interest in this work, attended for a week in July the conference of school lunch workers from all parts of the state. This conference was held at the State University in Durham and was under the direction of Miss Elizabeth E. Ellis, Extension Nutritionist.

The proposed budget of \$10,434. for 1946-1947 exceeds the present appropriation by more than a thousand dollars. The greater portion of this is demanded by the increased cost of high school and academy instruction throughout the state.

The salary of women teachers in some one-room rural schools in our state now amounts to \$1600. Men teachers in small elementary schools are receiving as high as \$2000. The "Teacher Retirement Law" of 1945 Section 6: Chapter 136, provides that the school district share with the individual's retirement fund. Fuel is another item of advanced cost to the district.

President Truman in his message to Congress on the 21st of this month emphasized the urgent need of federal aid, in addition to present local appropriations, to insure the maintenance of adequate educational facilities in the various states. The President further advocated the al-

lotment of such aid without federal interference with local school control.

The element of local initiative has been fundamental in our social and industrial development, particularly in New England. The essence of local initiative has its source in a well informed and actively participating citizenship. The training of youth with this end in view is of increasing significance to the welfare of individual and community. In it lies the answer to a new era.

Respectfully submitted,

GEORGE H. HARMON
